

SEEING DOUBLE

★ **THERE'S** a million waiting for you — and now you have two chances to win our fabulous **GUARANTEED** cash prize.

Check your card on our large grid (right) as usual and if you match up the shaded letters you're on the track for the big one.

But here's the golden bonus. Now you can also win a place in the million-pound draw if you can match your card against the shaded five letters in the single grid below the large one.

If you match up our millionaire draw codes you **MUST** claim today. Your name will then go into the draw that will decide our £1 million winner.

You will be invited to a gala event on October 7 in London. Ten finalists will go forward next day for the **BIG ONE**. So, on October 8, one lucky EXPRESS NEWSPAPERS reader will become a millionaire live on TV.

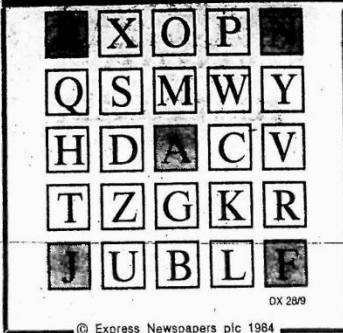

But even the losers will be winners—for we have cash prizes for all those who qualify for the draw. So good luck and win a fortune. But remember, there's no way if you don't play.

● Remember winning grids are also published all week in the Daily Star and in the Sunday Express every Sunday.

● Even if you haven't played before you can start right NOW. Just follow the simple instructions on this page.

MATCH YOUR CARD HERE

HERE'S HOW TO WIN THE PRIZE OF A LIFETIME

● **THIS** is your bonus chance to win £1 million. Just match your personal cash code on your card against the single line grid, from left to right **IN ORDER**. If you have the perfect match you are in with a chance for that magical million.

HOW TO PLAY AND WIN

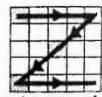

YOUR new Millionaire of the Month card with its distinctive red and gold colouring has your personal cash code printed on the back. Scratch off the two larger grey patches along the top edge and the bottom edge to reveal it. It consists of FIVE letters. Don't scratch off the much smaller grey patch in the middle of the card clearly marked **VOID IF REMOVED**. That would invalidate your card.

Now match your cash code against the larger grid printed above. You also have five different patterns (below) to check to see if you are a winner of our other cash prizes.

★ **FOR** your first chance to enter our fabulous £1,000,000 draw... match the five letters of your personal cash code with the shaded letters printed in today's large grid in the order and places as shown on our mini-grid (right). That is, the letter on the top left hand corner of the big grid, then the letter in the top right hand corner, then the letter in the centre space of the grid, then the letter in the bottom left hand space and finally the one in the bottom right hand corner.

If you have the perfect match you must claim today and you could go forward to a draw which will take place next month for the first guaranteed £1,000,000 cash prize.

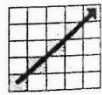

For your second chance see the instructions under the single line grid of shaded letters.

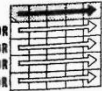

★ **TO** win our superb £50,000 prize... match the five letters of your personal cash code with the letters printed in today's large grid in **ORDER** on a diagonal, from the top left hand corner to the bottom right hand.

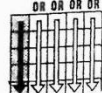

★ **TO** win our £5,000 prizes... match the five letters of your personal cash code with the letters printed in today's large grid **IN ORDER** on a diagonal from the bottom left hand corner to the top right — just as in our mini-grid.

★ **TO** win £1,000 check the five letters of your personal cash code with **ANY ONE ROW ACROSS FROM LEFT TO RIGHT**, **IN ORDER**, in today's large grid as shown on the right. Thus there are five chances to win £1,000 in every daily grid published.

★ **TO** win £100... match the five letters of your personal cash code with **ANY ONE ROW FROM TOP TO BOTTOM**, **IN ORDER**. Thus there are FIVE chances to win £100 on every daily grid published.
